presentation

The Minimally Invasive Surgery Centre Jesús Usón (MISCJU) at Cáceres will be the venue of the "1st International Iberian Course on Laparoscopic and Thoracoscopic Surgery", during 17th and 18th of October.

The event counts on the participation of Spanish, Portuguese and international professionals in the minimally invasive surgery. The current situation of this field of surgery will be review, updating the laparoscopic and thoracoscopic techniques and surgical instructions. Health collaboration between Spain and Portugal will arise, that will allow a bigger development of both countries in the mentioned surgical specialties, owing to the synergies will be generated by this course.

Spain and Portugal cooperate in the organization of this course. Dr. Jose Manuel Novo de Matos (Chairman of Surgery in Hospital de São José), on behalf of the Portuguese Minimally Invasive Surgery Society, and Dr. Salvador Pascual Sánchez-Gijón (Chairman of Surgery in J.M. Pascual Pascual, S.A. Hospitals) as a representative of the Dr. Pascual Foundation and MISCJU from Spain.
